IT EXPERT and EASYPC STAFFS EVALUATION GUIDE

TechPrime AI

Web-based Inventory, POS and E-Commerce System for EasyPC One Oasis Branch, Rosario, Pasig City

Project	TechPrime AI
Evaluation Type	IT Expert and EasyPC Staffs Evaluation
Purpose	System Testing and Evaluation
Quality Standard	ISO/IEC 25010 Software Quality Model

This guide is a quick reference while you evaluate **TechPrime AI**. The system access, test accounts and rating questions are all in the **Google Form**. Please open the Form first.

1. Evaluation Links

Google Form	https://forms.gle/na6MvzgjqjgFsBLy8
Live System	https://techprime-ai.onrender.com

2. Test Accounts

Role	Email / Username	Password	Main Modules to Test
Admin	jumaoas_samantha@plpasig.edu.ph	Admin123.	Dashboard, Forecast, Manage Users, Activity Logs, Messages, Settings
Retail Officer	paulcancerous01@gmail.com	Hello123.	Dashboard, History, Forecast, Print / Export (CSV, Excel, PDF), Messages
Inventory Custodian	jumaoas.samantha05@gmail.com	Hello123.	Orders, Stocks (Inventory & Add New Product), Forecast, Reviews, Messages
Cashier	paulcancerous02@gmail.com	Hello123..	POS Checkout, Receipt, Stock Alerts
Client	samanthajumaoas@gmail.com	Hello123.	Shop, Primo AI Assistant, Build a PC, Cart and Checkout, Product Review

A new Client account can also be created from the Register page (email verification is required).

3. How to Evaluate

1. Open the **Google Form** and read its instructions.
2. Open the **live system** and log in with one role at a time.
3. Try the **suggested tasks** in Section 4, plus anything else you want to test.
4. Rate each **ISO/IEC 25010** criterion in the Form (Section 5).
5. Add your **comments and recommendations**, then submit the Form.

4. Suggested Test Tasks

Role	Try This	Expected Result
Admin	Create a staff account in **Manage Users**.	The account appears in the list with its role.
Admin	Open **Activity Logs**, search for your email and change the rows per page.	Your login shows with time, role, action and IP address; results page 25 / 50 / 100 at a time.
Admin	Change a password rule in **Settings**.	Live Preview updates; the rule applies to new passwords.
Admin	Click **Print** on the Dashboard.	A print layout opens with logo, title, date range and prepared-by; menus are hidden.
Retail Officer	On the **Dashboard**, click **Export PDF** (or **Export CSV**).	A PDF report (or CSV file) downloads with the summary, monthly sales and sales by category.
Retail Officer	In **History**, choose a period or date range, then click **Export Excel**.	Totals and table update; an .xlsx file downloads with Summary, Deliveries and Items sheets.
Inventory Custodian	In **Stocks → Add New Product**, scan or type test barcode **400000000015**, pick a supplier, confirm.	Stock increases; the entry shows in My Recent Stock-Ins and Activity.
Inventory Custodian	In **Orders**, accept a pending order and update its status.	Status changes; the client gets a notification.
Inventory Custodian	In **Reviews**, reply to a client review.	The reply is saved and shows under the review for the client.
Cashier	In **POS Checkout**, scan or type **400000000015**, then check out.	Receipt shows VAT breakdown and change; stock decreases.
Client	Ask **Primo** for a product (e.g. “gaming laptop”), then ask an off-topic question (e.g. homework).	Primo replies with matching product cards; the off-topic question gets a short store-only reply.
Client	In **Build a PC**, pick a processor and motherboard.	Compatibility, build score and total update.
Client	Add an item to the cart and check out (Pick Up).	Order appears under My Account → To pay.
Client	When an order is completed, open **My Account → Order History** and click **Your review**.	The rating and comment show on the product page and in the custodian’s Reviews.
Staff (except Cashier)	Send messages and files to another staff member in **Messages**.	Messages arrive in real time; older messages load as you scroll up.
Any role	Stay idle for 15 minutes, or open another role’s page.	Session expires / access is denied.

Other test barcodes: **20000011** (EAN-8) and **2000000000015** (EAN-13).

5. Evaluation Criteria (ISO/IEC 25010)

Quality Characteristic	What to Check
Functional Suitability	Features are complete and correct: stock, POS, orders, forecasts, reports, Build a PC, Primo, reviews.
Performance Efficiency	Pages, search, barcode scanning and checkout respond quickly.
Compatibility	Works in Chrome, Edge and Firefox; works with a USB barcode scanner.
Usability	Clear navigation, labels and messages; easy to learn; protects against user errors.
Reliability	Handles wrong input, out-of-stock items, double submits and expired sessions.
Security	Role-based access, login lockout, password rules, session timeout, CSRF protection, audit logs.
Maintainability	Modular, role-based structure that is easy to update and test.
Portability	Usable on desktop and mobile browsers; deployable to a web host.

Rate only the characteristics included in the Google Form.

6. Reminders

- The system uses **live data**. Please use the test accounts and test barcodes, and do not delete existing users or products.
- Sessions expire after **15 minutes** of inactivity. A warning appears before you are logged out.
- Use **one role per browser window**. Open a private/incognito window to test a second role.
- Online payment is a **simulated** placeholder for this project. No real money is charged.
