

TechPrime AI

System Overview and Role Functions

[Insert full capstone title here]

1. About the System

TechPrime AI is a web-based inventory, point-of-sale and e-commerce system for **EasyPC One Oasis Branch** (Rosario, Pasig City). It replaces separate, manual stock and sales records with one shared database, so every walk-in sale, online order and delivery updates stock right away.

On top of daily operations, it adds **sales and demand forecasting**, an AI shopping assistant (**Primo**) and a **Build a PC** tool with compatibility checks.

2. Main Functions

- **Inventory Management:** product catalog, barcode labels, scan-based stock-in, and low / critical / out-of-stock alerts.
- **Point of Sale (POS):** barcode checkout for walk-in customers (Cash, GCash, Maya, Card) with VAT-inclusive receipts.
- **Online Storefront:** browse, search, wishlist, cart and checkout (Lalamove delivery or store pick-up).
- **Build a PC:** step-by-step PC builder with compatibility checks, build score and power estimate.
- **Primo AI Assistant:** chatbot that answers product, order and build questions using a trained intent model.
- **Forecasting and Reports:** monthly sales reports and 1–3 month demand and sales forecasts, exportable to CSV / PDF.
- **Security and Audit:** role-based access, 15-minute idle timeout, login logout, password rules and activity logs.
- **Staff Messaging:** internal chat among the Admin, Retail Officers and Inventory Custodians.

3. User Roles at a Glance

Role	Main Responsibility	Modules
Admin	Oversees users, security, forecasts and the audit trail	Dashboard, Forecast, Messages, Manage Users, Activity Logs, My Profile, Settings
Retail Officer	Monitors sales performance and forecasts	Dashboard, History, Messages, Profile
Inventory Custodian	Manages products, receiving and online orders	Dashboard, Stocks, Stock In, Orders, Activity, Messages, Profile
Cashier	Processes walk-in sales at the counter	Dashboard, POS Checkout, Receipt, Stock Alerts, Profile
Client	Shops online and plans PC builds	Home, Primo, Shop, Category, Product Details, Build a PC, Saved Builds, Wishlist, Cart, Checkout, My Account, Account Settings, Notifications, Privacy Policy

4. Admin

The Admin oversees the whole system: user accounts, security policy, forecasts and the system-wide audit trail.

4.1 Dashboard

Store-wide summary for the current month.

- Totals for orders, clients, retail officers and inventory custodians
- Monthly revenue and completed deliveries
- **Restocking Alerts:** products at or below the low-stock threshold

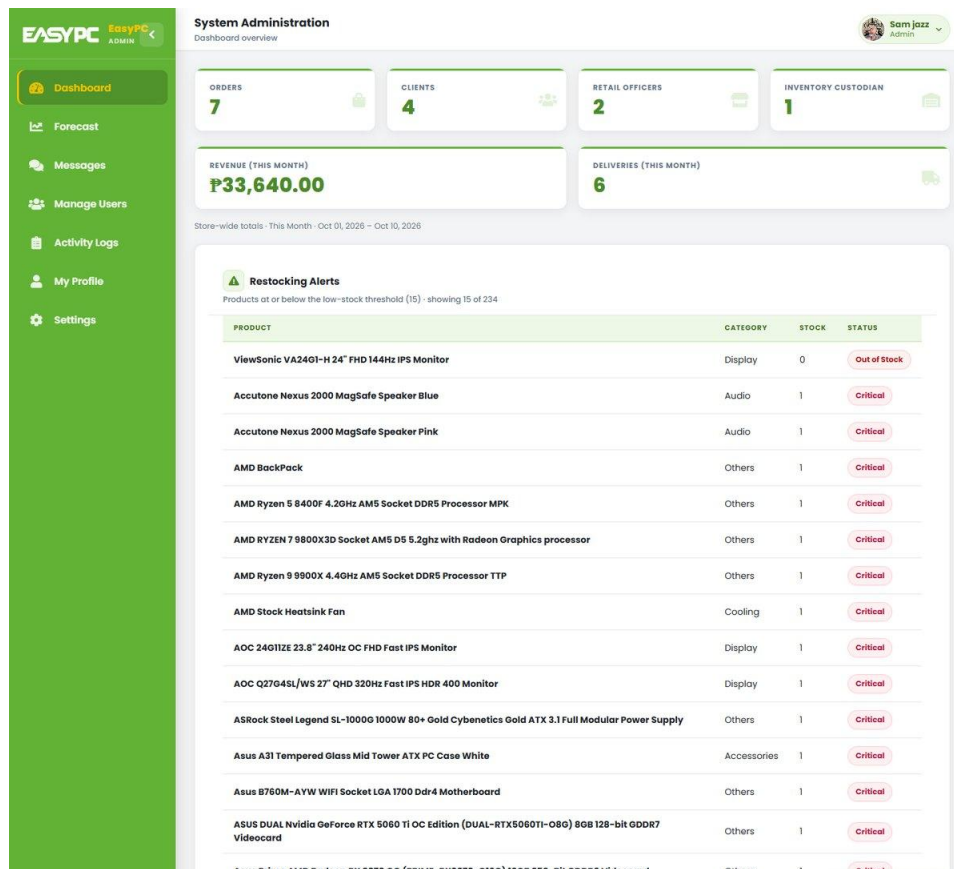

Figure 1. Admin: Dashboard

4.2 Forecast

Projects product demand and sales 1–3 months ahead.

- **Product Demand Forecasting:** forecast units, likely range, trend and confidence
- **Sales Forecasting:** expected revenue per month
- Filter by category and date range; switch between chart and table view

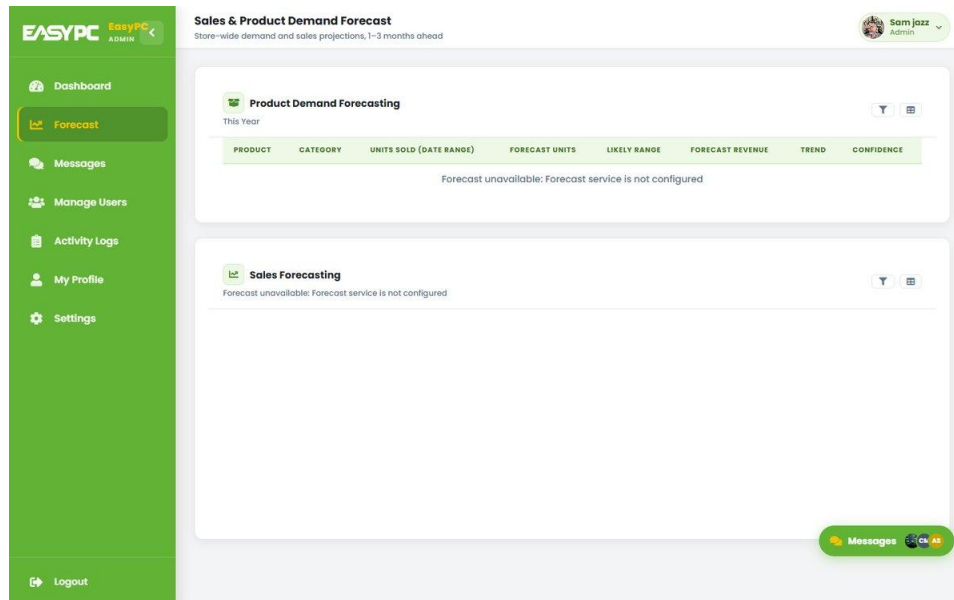

Figure 2. Admin: Forecast

4.3 Messages

Internal staff chat with Retail Officers and Inventory Custodians.

- Search staff and open a conversation
- Send messages and attachments; react, forward, pin or unsend
- Also available as a floating **Messages** widget on every staff page

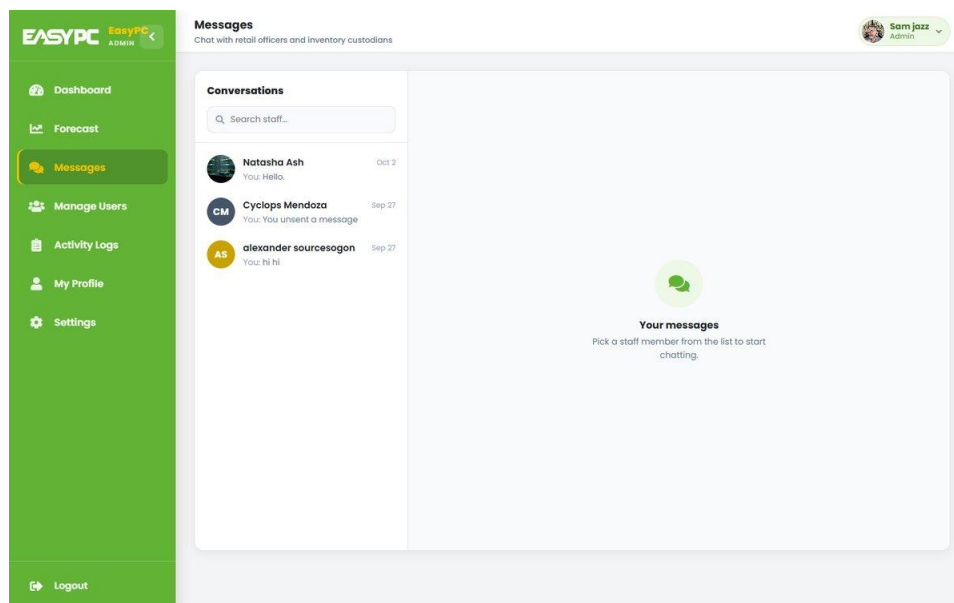

Figure 3. Admin: Messages

4.4 Manage Users

View and control every user account by role.

- Filter accounts by role; see verification and account status
- **Create Staff Account** for Retail Officers, Inventory Custodians and Cashiers
- Block, unblock or delete accounts

EASYPc ADMIN

Edit personal and delivery details.

- Name, age, email and phone number
- Default delivery address (province, city, barangay, ZIP) used at checkout

The screenshot displays the 'EASYPC' website's 'Client Account Settings' page. At the top, a green navigation bar contains the 'EASYPC' logo, links for 'Home', 'Shop Now', and 'Build a PC', a search bar with the placeholder 'Search laptops, parts and accessories', and user icons for notifications, a shopping cart, and the user 'Samantha'. Below the navigation bar, the user's profile is shown with a circular avatar, the name 'Samantha Jumao-as' with a verified checkmark, email 'samanthajumaoas@gmail.com', and 'Member since July 2026'. Buttons for 'Profile settings' and 'Log out' are present. The main section is titled 'Profile Settings' and contains two main areas: 'Personal Information' and 'Default delivery address'. The 'Personal Information' section includes input fields for 'First name' (Samantha), 'Surname' (Jumao-as), 'Age' (21), 'Email' (samanthajumaoas@gmail.com), and 'Phone number' (09760152897). The 'Default delivery address' section includes a note 'Used automatically at checkout. You can still send a single order somewhere else.' and input fields for 'House / Lot No. & Street' (Block 11 Lot 11 Sample St.), 'Unit / Floor / Building / Subdivision (optional)' (e.g. Unit 4B, Oasis Tower), 'Province' (Metro Manila), 'City / Municipality' (City of Pasig), 'Barangay' (Manggahan), and 'ZIP Code' (1011). At the bottom of the form are 'Back' and 'Save changes' buttons.
